

February 24, 2022

Dear Lemont Community,

Beginning February 28, 2022, the Lemont Park District will no longer require individuals to wear masks or show proof of vaccination while visiting Lemont Park District facilities per state and county orders that are due to go in effect per Governor Pritzker and the State of Illinois as well as Cook County Department of Public Health (CCDPH). This includes all fitness classes and those working out at The CORE as well as all programming for all ages. Please note, at this time face coverings are still required on public transportation so this will include Lemont Park District transportation during teen/adult/senior trip programs.

It is still recommended by the Centers for Disease Control and Prevention (CDC) and the Illinois Department of Public Health (IDPH) that all individuals consider wearing a mask based on their own personal risk factors. Lemont Park District staff will support the decision of all patrons regarding mask wearing and we ask that our community does the same.

Mask wearing and proof of vaccinations are still required under executive orders through Sunday, February 27th. This operational update is subject to change as it may be necessary to comply with local, State and Federal COVID health and safety guidance.

THANK YOU for your continued support and patience over the last two years as we all navigated the pandemic.

Sincerely,

The Lemont Park District Staff
